

Core - Bug # 18060

Status:	Closed	Priority:	Should have
Author:	Steffen Kamper	Category:	Backend User Interface
Created:	2008-01-27	Assigned To:	
Updated:	2013-05-06	Due date:	
TYPO3 Version:	4.2		
PHP Version:	5.2		
Complexity:			
Is Regression:			
Sprint Focus:			
Subject:	Make Effect Duration configurable		
Description			
the effect duration is by default 0.1 sec			
Some people may like a longer one, so i made a config option.			
This can be used for any effect setting in Backend, at the moment it's used for collapse / expand of left menu in new backend.			
config is done with userTS			
options.backend.effectDuration = 1 (this is 0.1)			
use values between 1 and 30 for good results			
(issue imported from #M7290)
