

## Core - Task # 38755

<b>Status:</b>	Accepted	<b>Priority:</b>	Could have
<b>Author:</b>	Steffen Ritter	<b>Category:</b>	Backend User Interface
<b>Created:</b>	2012-07-08	<b>Assigned To:</b>	
<b>Updated:</b>	2015-02-09	<b>Due date:</b>	
<b>TYPO3 Version:</b> 6.0			
<b>PHP Version:</b>			
<b>Complexity:</b>			
<b>Sprint Focus:</b>			
<b>Subject:</b>	Usability issues collected on the UX sprint		
<b>Description</b>			
<p>This taks is meant to be an umbrella task for all small issues identified at the ux sprint.</p> <p>Basically it creates small separated taks for developers out of the - partly - bigger tasks at the usability tracker and transform then in a developer language after discussing it on the sprint.</p> <p>We would be glad if everyone interested would grab himself a little piece and work on it - in a whole we reach improvements.</p> <p>For questions, thoughts behind it the original ui tasks will be linked..</p>			
<b>Subtasks:</b>			
Bug # 38758: Template module must only use session settings on startup			Accepted
