History

#1 - 2011-01-15 02:28 - Steffen Gebert

It has probably never worked, but was simply not used.

#2 - 2011-01-16 01:13 - Steffen Gebert

The id of the checkbox is always _0.

Reason is that `$PA['itemFormElID']` in `t3lib_TCEforms::getSingleField_typeCheck()` is undefined.

The `$PA` parameter array for flexforms created in `t3lib_TCEforms_Flexforms::modifySingleFlexFormSheet()`, using `$fakePA` as variable name.

Using the `itemFormElName` also as `itemFormElID` solves this issue and makes IDs unique also in FlexForms.

#3 - 2011-01-18 21:22 - Ernesto Baschny

Committed to trunk rev. 10123.

#4 - 2011-03-29 23:49 - Susanne Moog

- Target version deleted (4.5.0)
