

## Core - Bug # 66124

<b>Status:</b>	Closed	<b>Priority:</b>	Must have		
<b>Author:</b>	Gerald Loß	<b>Category:</b>	Frontend		
<b>Created:</b>	2015-03-29	<b>Assigned To:</b>			
<b>Updated:</b>	2015-03-29	<b>Due date:</b>			
<b>TYPO3 Version:</b>	7				
<b>PHP Version:</b>	5.5				
<b>Complexity:</b>					
<b>Is Regression:</b>	No				
<b>Sprint Focus:</b>					
<b>Subject:</b>	Serialization of 'Closure' is not allowed in GifBuilder				
<b>Description</b>					
<p>For the flag images of my language menu, I got always the following failure from the method \TYPO3\CMS\Core\Utility\GeneralUtility\GifBuilder-&gt;fileName()).</p> <p>Serialization of 'Closure' is not allowed.</p> <p>I think the reason is, there are some anonymous functions in any of the classes \TYPO3\CMS\Core\Resource\File or \TYPO3\CMS\Core\Resource\ProcessedFile which are included in the array setup. You try to serialize this array.</p> <p>I have found a workaround for myself. I transform the array setup with implode before I serialize it. But I cannot say, if this would lead to trouble in ohter situations. Therefore I know to less about this coding.</p> <p>Please have a look into the attached dokument. There can you see the workaround from me and the content of the array setup.</p> <p>Exactly Typo Version is 7.1.0</p>
