<b>Sprint Focus:</b>					
<b>Subject:</b>	Add a compressor/concatenator for CSS and JS to TYPO3				
<b>Description</b>					
#22507 aims to separate the stylesheets of the TYPO3 backend. This would force the browser to make a huge number of HTTP requests.					
Therefore: Merge the stylesheets together.					
Neither compression of CSS, nor any JS handling is implemented yet. Feel free to add! (issue imported from #M14247)
