Sprint Focus:					
Subject:	The import export menu will not activate				
Description					
<p>In Backend page always loads with a error on page. This error means I canot open the import export modual and the database always returns an error when I save Page as below. I have reinstalled 4 times and get the same error on my server.</p> <p>2: SQL error: 'Incorrect integer value: " for column 'storage_pid' at row 1' (pages:NEW4a0e091ed5522)</p> <p>(issue imported from #M11100)</p>

Resolved, duplicate of #20052

This is the exact same error message as in #20052

I assume you are running mysql in strict mode, which is currently not possible with TYPO3.
