

## Advanced Frontend Editing - Bug # 60776

<b>Status:</b>	Closed	<b>Priority:</b>	Should have
<b>Author:</b>	Chris topher	<b>Category:</b>	
<b>Created:</b>	2014-08-04	<b>Assigned To:</b>	Chris topher
<b>Updated:</b>	2014-08-06	<b>Due date:</b>	
<b>Subject:</b>	Stop using deprecated functions		
<b>Description</b>			
Update usages of deprecated functions, e.g.:			
<ul style="list-style-type: none"><li>- \$GLOBALS['LANG']-&gt;JScharCode() =&gt; GeneralUtility::quoteJSvalue() <a href="#">See here</a> = #55009</li><li>- FormEngine-&gt;isDisplayCondition() =&gt; Use \TYPO3\CMS\Backend\Form\ElementConditionMatcher instead. See #46461.</li></ul> Basically follow this code:			
<pre>1publicfunctionisDisplayCondition(\$displayCond, \$row, \$ffValueKey = "") {2GeneralUtility::logDeprecatedFunction();3/** @var \$elementConditionMatcher \TYPO3\CMS\Backend\Form\ElementConditionMatcher */4\$elementConditionMatcher = GeneralUtility::makeInstance('TYPO3\CMS\Backend\Form\ElementConditionMatcher');5return\$elementConditionMatcher-&gt;match(\$displayCond, \$row, \$ffValueKey);6 }</pre> <ul style="list-style-type: none"><li>- includeTCA() =&gt;<ul style="list-style-type: none"><li>- set in a condition for 6.0 and older</li><li>- For 6.1 and newer:<ul style="list-style-type: none"><li>- If at the place where we would call includeTCA(), \$GLOBALS['TCA']['pages']<b>is</b> set: just leave out the call and do nothing.</li><li>- Otherwise call \TYPO3\CMS\Frontend\Utility\EidUtility::initTCA(). See #47993.</li></ul></li></ul></li></ul>

**Revision 6758b1f4 - 2014-08-05 11:20 - Chris topher**

[TASK] Stop using deprecated functions

Replace usages of the following functions with their new equivalent:

- \$GLOBALS['LANG']->JScharCode() => t3lib\_div::quoteJSvalue()
- FormEngine->isDisplayCondition() => ElementConditionMatcher->match()
- Call \$TSFE->includeTCA() only when needed

- Status changed from New to Under Review

Patch set 1 for branch **master** of project **TYPO3CMS/Extensions/feeditadvanced** has been pushed to the review server.

It is available at <http://review.typo3.org/31996>

**#3 - 2014-08-05 11:18 - Chris topher**

- *Status changed from Under Review to New*

The patch solves all deprecations up to TYPO3 6.2.

One deprecation still remains on my system, but that is another issue:

Opening the edit window for a CE raises this warning multiple times:

The way registering a wizard in TCA has changed in 6.2.

Please set module[name]=module\_name instead of using script=path/to/sctipt.php in your TCA.

The possibility to register wizards this way will be removed in 2 versions.

These warnings come from wizard\_colorpicker.php, not the one coming with TYPO3, but from the one, which is coming with the extension bootstrap\_package. The [necessary changes](#) (#56279) have already been done in

[https://github.com/benjaminkott/bootstrap\\_package/commit/d97a9d43701800d91e4a53f3367bcfcd46179b02](https://github.com/benjaminkott/bootstrap_package/commit/d97a9d43701800d91e4a53f3367bcfcd46179b02) .
