TYPO3 Version:	6.2				
PHP Version:	5.4				
Complexity:					
Is Regression:	No				
Sprint Focus:					
Subject:	Cannot update extension in EM				
Description					
<p>I usually cannot update an extension with the built-in method in the list. Most of the time, first try does not show the dialog showing the update comments in newer versions and if it shows up (just tried a few minutes ago on master on production), it fataled with "extension XY is not loaded" in the middle of the upgrade process (extension was marked as inactive in PackageStates.php but I had to manually removed typo3temp/Cache).</p> <p>Tested with:</p> <ul style="list-style-type: none">- image_autoresize 1.4.0- was active before update- wanting to update it to 1.5.0- fataled as described- was inactive in PackageStates.php- was still at 1.4.0 on disk

[BUGFIX] Update \$GLOBALS['TYPO3_LOADED_EXT'] on package change

If a package is (un)installed we need to update
\$GLOBALS['TYPO3_LOADED_EXT']. ExtensionManagementUtility depends on
the actuality of this array.

Resolves: #56978

Releases: 6.2
