**Revision 3756116a - 2014-01-30 17:55 - Steffen Ritter**

[TASK] Fix remaining calls to FileRepository for retrieving Files

In previous efforts the calls to the FileRepository, when retrieving File objects have been relocated to the ResourceFactory, since the coexistence causes problems when it comes to metadata and multiple instances of the same entity.

As findByUid is defined in the AbstractRepository it was overlooked until now. This patch overrides the base method, deprecated it and calls the ResourceFactory, too.

In addition all calls in core are replaced with the direct call.

Resolves: #53690

Releases: 6.2
