Revision 73af487a - 2012-09-19 20:14 - Christian Kuhn

[BUGFIX] EXT:form tests and unicode fix

This cleans up the existing EXT:form tests and
adds them to the travis testsuite.

The two filter test cases fail on systems like debian with
PHP 5.3.3 due to a broken PCRE environment. This issue is
identical to #39123 and the fix is very similar.

#6 - 2012-09-03 16:22 - Matthias

why is this changeset not integrated in my typo3 installation version 4.7.4?

#7 - 2012-09-04 08:00 - Francois Suter

As far as I can see, this has not been backported to stable versions. The messages that appear above related to erroneous issue numbers being used in some pushes to Gerrit.

#8 - 2012-09-19 19:49 - Christian Kuhn

If this issue is backported to other core versions, the fix here should be merged with the unicode follow-up part from patch #41074
