Subject:	Support for "Allman style"		

Description

I don't know how others feel about it, but as for me I can't really concentrate on the enforced "K & R style" in Typoscript 1.0, which often gives me a headache.

So I would really appreciate it, if there were a possibility to use the "Allman brace style" in Typoscript 2.0.

- Priority changed from Should have to Won't have this time

we'll keep this in; but it definitely has a low priority right now.
