Subject:	Wrong default value 'Text' for $dataType in TYPO3\FLOW3\MVC\Controller\Arguments::addNewArgument()

Description

The default value 'Text' for $dataType in the signature of the method

    public function addNewArgument($name, $dataType = 'Text', $isRequired = TRUE, $defaultValue = NULL)

should be 'string' because there is no TypeConverter for 'Text'.

If I use

    $this->arguments->addNewArgument('test');

and passes a value for test, I get this Exception:

    TYPO3\FLOW3\Property\Exception\InvalidTargetException thrown in file
    TYPO3_FLOW3_Property_PropertyMapper_Original.php

    Could not find a suitable type converter for "Text" because no such class or interface exists.
