Subject:	Node migration fails (probably) if access roles are set to Nodes

Description

When one of my nodes had an accessroles property set and I attempted to run (any) node migration, the following exception raised:

Uncaught exception #1358513802 in line 1116 of

1 require("\Packages\Framework\TYPO3.Flow\Scripts\flow.php")

(temporarily) removing that property (setting it to a:0:{} manually in typo3_typo3cr_domain_model_nodedata.accessroles), made the error disappear.
