Sprint Focus:			
Subject:	Database Analyser: "Compare with $TCA" displays errors		

Description

In the INSTALL TOOL > Database Analyser "Compare with $TCA" there are many mismatches and the comparison of values are all mismatching, too.

(issue imported from #M8842)

History

#1 - 2010-05-18 19:52 - Chris topher

I can reproduce this behaviour with 4.7.
Just using "Compare" shows a green "Table and field definitions are OK."

But when I check "Compare with $TCA", some definitions in the DB are different from the ones which are suggested by TCA.

#2 - 2013-09-14 22:29 - Christian Kuhn

- Status changed from New to Resolved

- Target version changed from 0 to 6.2.0

- Is Regression set to No

Compare with TCA was removed from install tool in 6.2
