TYPO3.Flow - Bug # 33078

Status:	New	**Priority:**	Should have
Author:	Jörg Ohnheiser	**Category:**	Security
Created:	2012-01-10	**Assigned To:**	
Updated:	2012-03-07	**Due date:**	
PHP Version:			
Has patch:	No		
Complexity:			
Affected Flow version: FLOW3 1.0.2			
Subject:	No Redirect to Login		
Description			

I think this is a Bug with the Security Subsystem.

I'm only getting a Exception when i'm not login or i've no rights to access the controller.

But i'm awaiting a redirect to login when i've no Login Data or?

i've attached my policy and setting yaml file.

You are not allowed to perform this action.
10 TYPO3\FLOW3\Security\Authorization\Interceptor\AccessDeny_Original::invoke()

9 TYPO3\FLOW3\Security\Authorization\RequestFilter_Original::filterRequest(TYPO3\FLOW3\MVC\Web\Request)

Did you try to call the protected action manually, or via a Fluid generated link?

I'm asking, because to call protected action you also need to pass a csrfToken in the URL.

If the link is generated by Fluid, the URL contains the csrfToken automatically.

Another option is to annotate the action with @FLOW3\SkipCsrfProtection.

No real documentation for this yet, but here is an explanation:

[[http://media.netlogix.de/community/details/artikel/csrf-protection-in-typo3-phoenix-kindly-provided-by-flow3]]
