Subject:	Image in workspace

Description

Hi,

After an upgrade to 4.5.37, images are not shown in preview mode (before validation) in workspace.
    - in a workspace, we create an image content
    - in publish module, we ask to "validate" content
    - after clicking on the preview link, the image is not displayed

If we publish page and content, the image is displayed.

Best regards,

#1 - 2015-01-23 11:33 - Mathias Schreiber

- Target version set to 7.5

- Status changed from New to Needs Feedback

Can you please recheck with 6.2 or v7, as we reworked the image handling there.
