Core - Bug # 49432

Status:	Needs Feedback	**Priority:**	Must have
Author:	Franz Holzinger	**Category:**	
Created:	2013-06-26	**Assigned To:**	Franz Holzinger
Updated:	2015-05-14	**Due date:**	
TYPO3 Version:	6.2		
PHP Version:	5.3		
Complexity:			
Is Regression:	No		
Sprint Focus:			
Subject:	Install Tool does not write configuration		

Description
During the upgrade to TYPO3 6.2 I must reduce the installed extensions by the entry of tt_address, because the Upgrade Wizard hangs with a tt_address error message. However if I click the "Write configuration" button under "All Configuration" then it says "About configuration: yes symbol. Writing configuration" And nothing has been written because tt_address still remains in both extension lists.

History

#1 - 2013-07-28 17:07 - Christian Kuhn

That is probably because 'all configuration' still can not handle arrays.

#2 - 2015-01-17 14:57 - Mathias Schreiber

- Status changed from New to Needs Feedback

- Assigned To set to Mathias Schreiber

- Is Regression set to No

What's the status here?

#3 - 2015-05-14 18:14 - Riccardo De Contardi

- Assigned To changed from Mathias Schreiber to Franz Holzinger

Hello, Franz,

can this be closed?
