Subject:	neos:contentElement.editable adds additional div in live		

Description

Hello Neos-Team,

while our session we found out that neos:contentElement.editable returns an additional <div>-Tag in LIVE workspace.

TYPO3\Neos\ViewHelpers\ContentElement\EditableViewHelper

Set row 73-75 to:

```
if ($contentContext->getWorkspaceName() === 'live' ||
!$this->accessDecisionManager->hasAccessToResource('TYPO3_Neos_Backend_GeneralAccess')) {
    return $content;
}
```

Stefan
